Html, Css, Javascript, Bootstrap, Tailwind, React, Php, Laravel

LANGUAGES

Hindi (Native)   English (Proficient)

SUMMARY

- As a full-stack web developer, I specialize in building robust, scalable web applications. I work extensively with React, JavaScript, Vite, Tailwind CSS, and Bootstrap on the frontend, and Laravel and Node.js on the backend. Currently, I am deepening my skills in Node.js to further strengthen my backend development capabilities. My role involves delivering high-performance, responsive, and seamless user experiences across the full technology stack.

EDUCATION

Diploma
GP chappar   08/2021 - 07/2023

INTERESTS

Full-stack web development and exploring new technologies

Participating in team sports such as volleyball to enhance collaboration
